SVD11225CYB

It's the best of both worlds: a full HD laptop and a touchscreen tablet. All in a compact, mobile design that's ready from the word "go." Write notes or draw with the digitizer stylus, type an email or use your fingers to pinch, swipe and scroll your way through the web. Equipped with a 3rd generation Intel® Core™ i7 processor, 8GB[4] of memory and weighing only 2.87 lbs . It's versatility redefined.

Tough yet beautiful

The 11.6" Full HD 1920 x 1080p touchscreen LCD is equipped with IPS (in-plane switching) technology so you can enjoy a crisp image from any viewing angle - perfect for giving an important presentation or watching the latest blockbuster hit. The LCD is made tough and scratch resistant to help withstand the abuses of everyday use.

Smooth Surf Slider® design

The unique Surf Slider® design allows smooth transitions between tablet and laptop modes. Interact with the tablet by using the stylus or your fingers on the 10 point capacitive touchscreen. When you need the speed of real keys, simply slide the screen back to reveal the keyboard. It's thin and light design is perfect for the mobile user on the go.

Digitizer Stylus

The digitizer stylus delivers precise performance allowing you to write, draw, and tap the touchscreen effortlessly. With every stroke, the digitizers stylus captures even the most subtle nuances of pressure, allowing you to adjust line weight, brush size, and more by pressing harder or softer with the pen. When the pen is near the screen, the touch sensors are turned off so you can maintain a comfortable writing position, even laying your palm on the PC. Two tips are included, allowing you to simulate working with a variety of traditional art and design materials.

ArtRage Studio Pro

ArtRage Studio Pro contains all the tools of ArtRage Studio: oils, watercolors, and inking pens making it easy to produce natural looking artwork on your computer. This version is ideal for artists who need to edit their work in more depth, supporting Photoshop® compatible filters, real world color blending, post-spray editable stickers, and more.

Experience full-impact surround sound anywhere with Dolby® Home Theater® v4 technology on your PC. Whether you listen through headphones, the speakers in your laptop, or a connected home theater, a more captivating entertainment experience can be yours anytime.
